# **MOVING FORWARD**

## ***We are in this Together***

Due to concerns surrounding the novel coronavirus (COVID-19) and in accordance with guidance from the Centers for Disease Control and Prevention, the World Health Organization, and local health authorities, East Jersey Elite is implementing several new health and safety procedures as part of a proactive approach to help prevent the spread of germs. When it comes to decision-making, our commitment is this: protect the health and safety of our athletes. We have updated our program cleaning policies and procedures. We have also implemented new procedures for our athletes and staff. Please feel free to reach out to us if you have any comments, questions, concerns, or ideas. We would love to hear from you!

## ***Thank You!***

# ***ATHLETE SAFETY PROCEDURES***

## ***Before Training***

- Please drop off your child 5 minutes before their training.
- Unvaccinated adults must wear a mask when inside the facility.
- Athletes will have a temperature check upon entry with a touchless, infrared thermometer. Any athlete with a temperature over 100.1 degrees will not be permitted to train.
- Athletes with flu like symptoms will be sent home. If your child is unwell or is living with anyone unwell please keep your child home. If your child has recently traveled please follow all necessary state and local guidelines before your child returns to the gym.
- We ask that athletes try to avoid bringing extra bags to the gym.

## ***During Training***

- Athlete's name must be written on their water bottle. Water bottles without names will be thrown away. Athletes may not share drinks or give "air sips" . Athletes without a drink will not be able to practice.
- There will be hand sanitizing stations throughout the facility.
- If weather permitting, athletes will wait outside for pickup.
- Please make sure your athlete does not leave anything inside the gym.

# STAFF & FACILITY SAFETY PROCEDURES

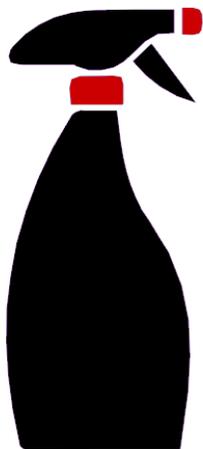

## Staff

- Staff will follow the same safety guidelines as athletes (temperature check, sanitizing, etc).
- Staff is to ensure that they do not have any physical contact with athletes (except for spotting).
- Staff must follow the NJ Department of Health Guidelines. Unvaccinated staff members are required to wear a mask at all times. Staff members who are fully vaccinated are not required to wear a mask but may do so if they choose.

## Facility

- The entire facility will be deep cleaned daily.
- All commonly used areas, surfaces, handles, and touch points will be cleaned and sanitized frequently.
- Cleaning and sanitizing equipment will be available at all times.
- We will be using SportSani to keep our facility as clean as possible. Previously only made available to government agencies and municipalities, SportSani is the only distributor of mPact to private sports facilities. SportSani is a two-step process that inhibits and prevents the spread of virus, mold, and bacteria - not with poison - but by puncturing cell walls on a microscopic level. SportSani uses the combination of mPale™ and mPerial™. mPale™ is unable to be detected by human touch but is highly effective against virtually all viruses, including COVID-19 surrogate, commonly referred to as human coronavirus, H1N1, influenza, MRSA/staph, molds and most bacteria. mPale™ antimicrobial is colorless, odorless, and can be applied to wood or steel framing, sheet-rock, carpets, upholstery and painted surfaces. Once it is sprayed on, it bonds to the surface and retains its effectiveness for a minimum of 30 days.

# ***SOCIAL DISTANCING & CONTACT TRACING***

## ***Social Distancing***

- The gym capacity will be limited based on government guidelines.
- We ask that athletes, staff, and parents do their best to not congregate inside the facility at any time.

## ***Contact Tracing***

- Attendance will be taken for every class.
- If there is a confirmed case of COVID-19 by an athlete or an immediate family member of an athlete, the gym will undergo an extra deep cleaning. We will follow all state and national guidelines.
- EJE will follow national and state protocols in regards to the COVID-19 Virus.
